

FOOD PLOT APPLICATION

This document outlines the general guidelines for planting food plots on your recreational license. Please review all information prior to submitting your application.

The purpose of this document is to establish clear and consistent policies for planting food plots on your recreational license. Roseburg Resources Co. reserves the right to amend these policies at any time.

- ◇ All clubs wishing to plant food plots are required to complete and submit the form below in order to obtain approval to plant food plots on lands managed by Roseburg. It is NOT acceptable to plant first and then notify. Failure to comply with prior approval process may result in a reclamation of food plot, additional assessment fees, and/or termination of your agreement.
- ◇ Genetically modified organisms, non-native perennials and invasive annuals or perennials cannot be planted on our property.

To apply to plant food plots on your licensed property, please complete the form below. ALL information is required.

Generally Acceptable Species

(includes but not limited to the species listed below)

- Clovers (except sweet yellow or sweet white)
